

COX SCIENCE BUILDING RENOVATION PROGRAM THROUGH 2008

Architect: Moses & Associates

Contractor: Arellano Construction

Project Description:

This is a consolidation of several smaller projects in planning. To meet the needs of the College of Arts & Sciences, a program of projects was developed to be performed through 2008. These include infrastructure improvements through-out the building plus renovation of 12,665 square feet of office and lab space. Four office and lab projects will be performed in summer 2006. Infrastructure improvements will take place during summer 2007, with renovations to the organic and teaching labs in summer 2008. The Infrastructure and organic and teaching lab projects will be presented as we approach their planning.

Chemistry Lab 352 Renovation

Square Footage: 1.2K SF

Description: Total renovation of Lab Room 352

Biology Lab 229 Renovation

Square Footage: 1.5K SF

Description: Complete renovation of Lab Room 229

Chemistry Lab 253 Renovation

Square Footage: 1.6K SF

Description: Total Lab Renovation in Room 253

Chemistry Lab 354 and 354a Renovation

Square Footage: .6K SF

Description: Partial renovation of the lab in Room 354 and 354a
